

**Applied Motion Solutions, Inc.**

**Keeping Industry In Motion**

Applied Motion Solutions, Inc. Principal partners are manufacturers recognized as world leaders in industry and support state of the art motion control and industrial power transmission products.

AMS applies these products to equipment manufacturers (OEM's) in a wide variety of industries including:

Defense, Environmental, Instrumentation, Material Handling, Medical, Office Equipment, Packaging, Life Sciences, Printing and Semiconductor.

**CHIAPHUA  
COMPONENTS**

PMDC/BLDC/AC OEM Motor solutions. [Click for more...](#)

**Computer Express**

A complete line of high quality enclosures, single board computers, rackmount LCDs, keyboards, backplanes and more. [Click for more...](#)

**CURTISS -  
WRIGHT**

Linear Roller Screw Actuators from 500-80,000 lbs of force and Rotary Servo Motors/Controls. [Click for more...](#)

**EXLAR®**

**KING-CORD**

AC Power cords for IT/Office Equipment, Home appliances, industrial and other related electrical products for all international requirements. [Click for more...](#)

**MACH MOTION PRODUCTS**

**QUALITY MOTION SOLUTIONS**

A wide range of standard options that can be modified to fit specific needs that work best for your custom applications. [Click for more...](#)

**MACRON DYNAMICS, INC.**

Linear and Mechanical Motion Systems, Rodless Actuators, Single, X-Y & X-Y-Z Gantry Systems. [Click for more...](#)

High precision positioning systems for use in a wide variety of applications. Tobots are based on a hexapod system.

[Click for more...](#)

Line/ Load Reactors, EMI & RFI Filters, Motor Protection Filters and Isolation Transformers & IEEE-519 Broad Band Harmonic Filters.

[Click for more...](#)

Precision DC and Brushless Motors and Gear Heads from 4mm to 22mm diameter. [Click for more...](#)

Precision Planetary Reducers, Zero Backlash Reducers, Traction Drives for PT and Motion Control applications. [Click for more...](#)

AC Drives 1/2 HP to 1000HP, AC Motors 1/3 HP to 100,000 HP. [Click for more...](#)

Applied Motion Solutions, Inc. is a successful sales organization with extensive experience promoting industrial products requiring mechanical and electromechanical solutions to customers in the Northeastern United States. With three locations, we have you covered from Maryland to Maine.

For more than 25 years, AMS has represented leading manufacturers of a wide range of Motors Products, Drives, Controls, Power Quality, PC's, Mechanical Actuators, Components and Robotic Systems.

Our experienced sales team works with each client to find the solutions that best suit their particular needs.

**For more information, contact a sales engineering team by using our online email form for quick response or contact one of our team members directly.**
